## WORK EXPERIENCE

**Remix Labs**                                                                                                    Jan 2025 – Present
*Product Analyst (Contract)*                                                                                                    *Remote*
- Spearheaded MCP server development for Claude AI integration across Google Sheets, Snowflake, Airtable, Gmail, Notion, HubSpot, etc.
- Built AI-powered solutions leveraging multiple LLM APIs (Claude, ChatGPT, Gemini) for automated workflow optimization and scalable AI integration

**Remix Labs**                                                                                                    Mar 2023 – Dec 2024
*Associate Software Engineer*                                                                                                    *Remote*
- Built real-time rapid prototyping platform using proprietary Remix Studio, reducing development time by 40%
- Developed reusable component library enabling faster client flow development with centralized consistency and maintenance

**CouchConcerts**                                                                                                    Mar 2023 – Present
*Freelancer - Flutter & Next.js Developer*                                                                                                    *Remote*
- Built cross-platform mobile application using Flutter with GetX state management and Firebase, connecting 300+ active users
- Implemented deep linking, real-time chat functionality and event booking system with multi-stage approval workflows
- Developed responsive Next.js 15 web application with React.js 19, achieving 95% mobile compatibility score

**Skywa Solutions**                                                                                                    Sept 2021 – Feb 2023
*Flutter Developer*                                                                                                    *Hyderabad, India*
- Developed and published cross-platform mobile applications on Google Play Store and Apple App Store
- Built service optimization application reducing customer wait times by 45% through efficient queue management
- Created customizable widget library ensuring consistent design system across internal projects

## PROJECTS

**BusGo Full-Stack Application** | *React Native, Node.js, TypeScript, TanStack Query* | GitHub                 2025
- Created full-stack bus booking system with secure Google authentication and real-time seat availability tracking
- Built robust Node.js backend with ticketing logic and integrated modern React Native frontend with sleek UI

**Jira Clone** | *Next.js 15, TypeScript, Appwrite, Hono.js* | GitHub                                          2024
- Built comprehensive project management tool with Kanban boards, analytics, and role-based authentication
- Integrated drag-and-drop functionality, calendar views, and team collaboration features using modern tech stack

**AI Integration - MCP Servers** | *TypeScript, Model Context Protocol*                                        2025
- Built MCP servers for GitHub, Google Workspace (Drive, Docs, Sheets, Slides), File System & Notion enabling seamless Claude AI integration
- Implemented distributed authentication and real-time data synchronization for enhanced AI workflow automation

## SKILLS AND CERTIFICATIONS

**Programming Languages**: TypeScript, JavaScript, Java, Dart
**Tech Stack**: Next.js 15, React.js 19, Flutter, React Native, Node.js, Express.js
**Frontend Technologies**: Tailwind CSS, Framer Motion, Aceternity UI, Shadcn UI, Responsive Design
**Mobile Development**: Flutter, React Native, Expo, Firebase, Android Development, Cross-platform Solutions
**Backend & Database**: REST APIs, MySQL, MongoDB, Firebase, Appwrite, Real-time Data Synchronization
**Cloud and DevOps**: Vercel, Firebase Hosting, Git, GitHub Actions, Sentry Error Tracking
**AI & Integration**: Model Context Protocol (MCP), Claude AI Integration, LLM Workflow Optimization

## EDUCATION

**Kalinga Institute of Industrial Technology**                                                     July 2018 – May 2022
*B.Tech, Computer Science And Engineering(CSE)*                                                     *Bhubaneshwar, India*
- Grade: 9.15/10
